There's no need to let hearing loss impact the connections that matter most in life. Whether it's with family, friends, business contacts or healthcare professionals, it's our ability to **connect, communicate and collaborate with others** that makes our lives whole. For people with hearing loss, a simple thing like a telephone conversation can become an obstacle. But with the right technology, telephone conversations become manageable, allowing for meaningful connections.

The Hamilton® CapTel® captioned telephone is the most advanced captioned phone available. It's possible to **listen and read captions of what's said over the phone** ensuring clarity on every call – eliminating the frustration even a simple phone call can make.

With a qualified hearing loss, you are eligible to **receive a Hamilton CapTel phone at no cost**. Choose the Hamilton CapTel phone that's right for you then complete and submit the Certificate of Hearing Loss/Order Form (see reverse).

VETERAN CERTIFICATION

I understand that Internet Protocol Captioned Telephone Service (IP CTS) is regulated and funded by the Federal Communications Commission (FCC) and in order to obtain a Hamilton CapTel phone at no cost, I may be required to provide valid certification that I am a veteran of US military service and have a hearing loss necessitating the use of captioned telephone service. I also understand that I may be required to provide the last four digits of my social security number and date of birth upon registering my Hamilton CapTel phone, and that captions provided through IP CTS are generated by a live captioning assistant.
